# IMPROVE SYDNEY PUBLIC TRANSPORT (ISPUT)

## Brookvale Line

### Community Benefits and Concerns

- Originally planned in 1906, the Brookvale line is not a copy of but a revival for the need to provide a Railway to some of Sydney's most scenic places.
- Middle Harbour would not be visually impacted upon as the line would be underground for most of the route.
- This new line will connect Brookvale with the Sydney CBD and Narrabeen.
- Commuters will be able to change trains for Chatswood and Hornsby at Wheeler Heights.
- Long suffering residents of the beautiful Northern Beaches will be provided with a fast and efficient railway.
- Above and below ground operation of the line.
- Reduce peak hour traffic congestion.
- The car, taxi, bus and coach industries will not be adversely affected by the construction of the Brookvale line.
- Existing roads become safer to use for motorists and cyclists.
- Road fatalities will be reduced and as a result car insurance premiums will fall.
- Truck drivers and couriers will be able to deliver goods more easily.
- New and light rail routes will not remove the need to expand and improve the rail network.
- Introduction of a multi-modal charge card for train, bus and ferry travel similar to the E-Toll account or Cab charge card.
- Enable commuters to purchase train, bus and ferry tickets on the internet.
- Separation of railway line planning from urban planning.
- Financing of this railway will come from public, private and **RAILWAY BONDS**.
- Who loves sitting in stressful peak hour traffic congestion?
