IMPROVE SYDNEY PUBLIC TRANSPORT (ISPUT)

Cronulla Line Extension

Community Benefits and Concerns

- Long overdue duplication of the Cronulla line.
- The Cronulla line extension proposal provides for better access to the Shire's beautiful beaches.
- New underground platforms would be built at Bankstown, Padstow and Sutherland stations.
- Additional platforms would be built at Cronulla and Kirrawee stations.
- Reduce peak hour traffic congestion
- Improvement of existing rail services
- The car, taxi, bus and coach industries will not be adversely affected by the construction of the Cronulla line extension.
- Existing roads become safer to use for motorists and cyclists.
- Road fatalities will be reduced and as a result car insurance premiums will fall.
- Truck drivers and couriers will be able to deliver goods more easily
- New bus and light rail routes will not remove the need to expand and improve the rail network.
- Introduction of a multi-modal charge card for train, bus and ferry travel similar to the E-Toll account or Cab charge card.
- Enable commuters to purchase rail, bus and ferry tickets on the internet.
- Separation of railway line planning from urban planning.
- Financing of this railway will come from public, private and **RAILWAY BONDS.**
- Who loves sitting in stressful peak-hour traffic congestion?
