# IMPROVE SYDNEY PUBLIC TRANSPORT (ISPUT)

## Macarthur Line

### Community Benefits and Concerns

- The Macarthur Line will reduce congestion on the Southern, Western, Bankstown and East Hills lines, allowing residents from Macarthur a saving of 15 minutes on journeys to the city.
- New underground platforms at Parramatta would link services to the Carlingford line with additional above-ground platforms built at Macarthur.
- Reduce peak hour traffic congestion
- Above- and below-ground operation of line
- Improvement of existing rail services
- The car, taxi, bus and coach industries will not be adversely affected by the construction of the Macarthur Rail Line.
- Existing roads become safer to use for motorists and cyclists.
- Road fatalities will be reduced and as a result car insurance premiums will fall.
- Truck drivers and couriers will be able to deliver goods more easily
- New bus and light rail routes will not remove the need to expand and improve the rail network.
- Introduction of a multi-modal charge card for train, bus and ferry travel similar to the E-Toll account or Cab charge card.
- Enable commuters to purchase bus, rail and ferry tickets on the internet.
- Separation of railway line planning from urban planning.
- Financing of this railway will come from public, private and **RAILWAY BONDS**.
- Who loves sitting in stressful peak-hour traffic congestion?
