IMPROVE SYDNEY PUBLIC TRANSPORT (ISPUT)

Northern Line Extension

Community Benefits and Concerns

- Reduce peak-hour traffic congestion.
- Above and below-ground operation of the line.
- New underground platforms would be built at Strathfield, Bankstown and Beverly Hills stations.
- Regents Park East, Strathfield South and Belfield would be new above-ground stations on the quadrupled existing freight rail corridor.
- Belmore East would be a new dual level interchange station to allow for easy access to the Bankstown line.
- The Existing Bankstown line would be quadrupled between Birrong and Bankstown, with new platforms provided at Yagoona and Birrong stations.
- Improvement of existing rail services
- The car, taxi, bus and coach industries will not be adversely affected by the construction of the Northern Rail Line extension.
- Existing roads become safer to use for motorists and cyclists.
- Road fatalities will be reduced and as a result car insurance premiums will fall.
- Truck drivers and couriers will be able to deliver goods more easily
- New bus and light rail routes will not remove the need to expand and improve the rail network.
- Introduction of a multi-modal charge card for train, bus and ferry travel similar to the E-Toll account or Cab charge card.
- Enable commuters to purchase bus, rail and ferry tickets on the internet.
- Separation of railway line planning from urban planning.
- Financing of this railway will come from public, private and **RAILWAY BONDS**.
- Who loves sitting in stressful peak-hour traffic congestion on Metroad 3?
